SUMMARY

Undergraduate Student At Rochester Institute of Technology

EXPERIENCE

Corner Store

Sep 2025 - Present

Student Employment

Rochester Institute of Technology

- Stock aisles, freezers, and beverage sections and operate the POS cash register along with helping to close the store during closing shifts

SpaceTech

Oct 2024 - Nov 2024

Venture in SpaceTech Work Experience Program

Johannesburg, South Africa – Online(Delta Careers)

- Designed a propulsion system prototype while collaborating with three other engineers, which enabled the team to meet the project's performance criteria
- Conducted technical research and used lectures to inform design decisions, and integrated findings into the propulsion concept, improving design confidence
- Co-created and delivered the final concept presentation to faculty and peer, which received great feedback

Coca-Cola Peninsula Beverages

Jun 2024 - Jun 2024

Coca-Cola Peninsula Beverages Internship

Cape Town, South Africa

- Observed plant repair and maintenance operations during an on-site technical tour, while learning about the mechanisms and operations of the plant from the plant manager
- Gained a clear understanding of bottle-recycling and material-recovery workflows by learning about their sorting, cleaning, and reprocessing steps.
- Engaged with production engineers and technical staff to understand line operations, equipment performance, and process constraints

Ferrari

Feb 2024 - Mar 2024

Ferrari Work Experience Program

Johannesburg, South Africa – Online(Delta Careers)

- Co-designed a hybrid vehicle concept with three team members by applying research and course knowledge to create a fuel-efficient design.
- Delivered a 10-minute presentation to senior engineers using PowerPoint to communicate design rationale, technical specifications, and performance targets, which earned positive feedback

SKILLS

- Microsoft Excel, Matlab, Vex V5(Robotics), Lathe and Mill Operations, Embedded C(MSP430 microcontroller), Intel Quartus Prime, CAD

AWARDS

- **MVP Award – ISSEA STEAM Competition:** Recipient for best overall team performance
- **Integrity Award – African Leadership Academy:** Solo Recipient for Integrity, Character, Leadership
- **Rugby Excellence Award:** Won award for dedicated performance on & off the field

LANGUAGES

- Hindi
- English

ROBOTICS PROJECT

Robotics Project

Self Project

- Built a Vex, Arduino, and Lego robotic system, including automated movement using sensors, remote control, and automated and controlled claws

EDUCATION

Rochester Institute of Technology

Aug 2025 - May 2030

Undergraduate, Mechatronics Engineering Technology

Rochester, NY

CGPA: 3.16

American International School of Johannesburg

Aug 2021 - May 2025

High School Degree, IB Courses

Johannesburg, South Africa

- **Coursework:** Chemistry SL, Physics SL, Math AA SL, Economics SL, Technology Elective: Intro to Robotics

African Leadership Academy

Jun 2023 - Jun 2023

Leadership course, Leadership

Johannesburg, South Africa

- **Achievements:** Integrity Award
- **Coursework:** Leadership courses

Extracurricular

AISJ

Aug 2023 - May 2025

Rugby

- Member of the school rugby team, played for the second team in 11th grade before getting injured.

Robotics Club

Aug 2021 - May 2025

Captain of the STEAM(Science, Technology, Engineering, Arts and Math's) Competition 2025

- Co-Captain of the Robotics Team in 2024
- Part of the team for Robotics, and Engineering
- Built automated Lego and Vex robotics
- Built a trebuchet with the engineering team
- Worked with science and math team to prepare for a quiz
